Subject: Microsoft Settlement

To anyone who anyone who may read this,
There is an
extremely gross misunderstanding as to how Microsoft
works. It would be much more effective for a high
level government official to DROP all legal action and
just ask Microsoft to create a more competitive
environment. This is the TRUTH!!! Simple and quick. A
judgment like this would turn the economy around in a
day. Microsoft would take the responisbilty seriously
and would take a commanding role in turning things
around. Microsoft WILL succeed in whatever direction
they are pointed in so point them at the common good.
